Red Bluff Lodge

Come as a Customer... Leave as a Friend.

CREATING LIFETIME MEMORIES SINCE 1998.

DEER

The lowcountry of South Carolina is blessed with a very high deer density. All of our deer hunting is done from safe and comfortable welded steel tower stands. They are situated in a variety of habitats - ranging from cutovers to river bottomlands.

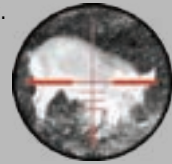

- Hunters may harvest 2 bucks, 2 hogs and 1 doe per day.
- Stand placements offer shots that range from 50 - 400 yards. The average shot is 125 yards.

HOG

We hunt free ranging wild hogs on two miles of pristine bottomland along the Savannah River. This provides an exciting experience filled with spectacular scenery. Hog hunting is a year round hunting opportunity.

- Day hunters may harvest 2 hogs per day.
- Night hunters may harvest 1 hog per night.

ALLIGATOR

Imagine an evening boat ride in search of an American alligator. Very few hunting experiences can be said to be as exciting as an alligator hunt.

- Hunters may combine deer, turkey, and hog with alligator hunting.
- Alligator hunts take place during public and private land seasons on both river and pond settings all around South Carolina's lowcountry region.

TURKEY

Guests can enjoy an exciting morning of turkey hunting with an expert guide or they can try to outwit a gobbler on their own.

- Morning turkey hunts are combined with afternoon or night hog hunts to provide a unique hunting experience.
- Hunters may harvest 1 gobbler per day and a maximum of 2 per season, with only 1 gobbler being harvested in March.
